

TASK is an outdoor portable light with LED technology. It has a fun design that is reminiscent of a mushroom and has a leather handle to facilitate its transport. The light, which is projected indirectly, is warm and can be regulated in three intensities. As it is portable, it is recharged with a mini USB cable (included) and its autonomy depends on consumption: - 100% intensity 6 hours of autonomy. - 40% intensity 15 hours autonomy. - 10% intensity 80 hours autonomy. Complete charging time is 4 - 5 hours and in order to put it outside, it is important to cover the USB closure with the protector. Lighting solutions designed for global markets, compatible with mains voltages: 110 - 120V and 220 - 240V.

## General characteristics

Fixation	Table
Type	III
IP	54
voltage	5V DC
Switch type	Touch
Type of load	DC5V-1A
included battery	Yes6h
Max. Power	2W
IK	08

## Material

Body/Structure	Aluminium
Diffuser	PC

## Finish

Diffuser	Opal
----------	------

## Lighting characteristics

Light source included	Yes
Light source	SMD LED
Temperature	3000K

LM	263lm
CRI	>=80
Dimmable light source	Yes
Intensities	16lm / 103lm / 263lm
Light direction	Ambient lighting
Energy classification	G

## Driver

Requires Driver	Yes
