

The GAIA beacon is a light specially created for outdoor areas. Designed by Yembarastudio, its shape evokes a perfect sphere, an organic form without edges that blends naturally into the landscape. The light emanates from its interior in a mysterious and elegant way, fading as it goes. The convex side of the concrete piece is exposed to the darkness, like the dark side of the moon. During the day, the piece is integrated into the landscape, but in the opposite way. The blind side is exposed to the light while darkness surrounds it. Thanks to the built - in shade, this beige luminaire is glare - free and provides a high level of visual comfort. An IP68 connector for direct connection to mains power is available for easy installation.

## General characteristics

Fixation	Floor
Type	II
IP	55
voltage	220V-240V
Hertz	50/60Hz
Max. Power	6W
IK	06

## Material

Body/Structure	Concrete
----------------	----------

## Lighting characteristics

Light source included	Yes
Light source	SMD LED
Temperature	2700K
Adjustable colour temperature	No
LM	214lm
CRI	>80
LED lifetime	50.000hs
Dimmable light source	No
Energy classification	E

## Driver

Requires Driver	Yes
Driver included	Yes
Power factor	0.9
Maximum driver information	200mA CC
